

ONSHI-HAKONE PARK

Kanagawa Prefectural Park

# ONSHI-HAKONE PARK

## Feel the heartbeat of the earth and hear the whisper of the wind

The still lake reflects the changes of the seasons shown in the gardens. Ashinoko Lake's abundant waters, Hide Peak and Mount Fuji complete the view.

Turn your ears to the chirping of the birds and embrace the wind as you walk. Experience the emotion in this getaway from the everyday.

### Lakeside Panorama Hall

A two floor example of European architecture built from hewn white granite based on the motif of the Occidental Hall of Hakone Palace. Inside there are exhibition spaces with collections of Hakone Palace documents and a rest area. From the balcony on the second floor you can enjoy a view like no other.

## Registered as a Registered Monument (Place of Scenic Beauty)

Onshi-Hakone Park was once the grounds of the Hakone Palace that was built during the Meiji period and was given to Kanagawa Prefecture in 1945 to be made open to the public as a park. Highly appraised for the way the park incorporates elements of the land and remaining facilities of Hakone Palace, the park was registered as a National Registered Monument in 2013 as a place of scenic beauty that contributed to the development of modern landscaping culture.

\* Registered Monuments are monuments that must have special measures for preservation and use as defined in the Act on Protection of Cultural Properties.

## Four Seasons of the Park

The changes of the seasons are revealed in Mt. Fuji reflected in the lake and the hedges, trees and groves from the time of Hakone Palace. You're sure to enjoy a walk around the grounds which takes about one hour.
